

NovaTec Immundiagnostica

NovaTec Immundiagnostica is mainly engaged in the development and manufacturing of ELISA diagnostic kits for both human and veterinary markets. Our main area of focus is infectious diseases.

Our kits are used for diagnosis of bacterial, viral and parasitic diseases. NovaTec Immundiagnostica works together with well-known national and international diagnostic companies. Worldwide sales of NovaTec Immundiagnostica products are performed by well-known diagnostic companies and in cooperation with national distributors in over 60 countries.
